

AN INVITATION TO BRING TO YOUR FORUM

THE INVOICE THAT TALKS TO THE TAX AUTHORITY.

A COMPLIMENTARY MASTERCLASS ON UAE E-INVOICING.

From 1 January 2027, the UAE's largest businesses must issue invoices that report themselves to the Federal Tax Authority — in near real time — with the rest of the market following through 2027. It applies to B2B and B2G transactions (B2C sales are excluded), and many founders haven't heard of it yet. Here is your chance to put your community a step ahead of the mandate.

Authentic Accounting will deliver the session end to end — at no cost to you or your members. Clear, practical, and built for founders, not accountants.

KEY DEADLINES · THE PHASED MANDATE
